EDUCATION

UNIVERSITY OF CALIFORNIA, BERKELEY

M.S. Civil and Environmental Engineering, 2018

UNIVERSITY OF CALIFORNIA, BERKELEY

B.S. Civil and Environmental Engineering, 2017

EXPERIENCE

BUILT TECHNOLOGIES

Senior Product Manager

2025 - Present

- Serve as the PM for Construction Financials, an end-to-end construction financial management product spanning budgeting, invoicing, compliance, lien waivers, and embedded payments
- Launched expanded AI document extraction leveraging Google's DocAI, for Change Orders, Commitments, and Compliance documents, reducing manual data entry for users across three workflows
- Launched a centralized compliance tracking module, projected to reduce customer compliance document volume by 24%
- Led a progressive customer rollout of the Pay Application and Change Order module redesigns, conducting live calls with early adopters to surface and address UX friction and prior to widespread release

Product Manager

2024 - 2025

- Launched Built's first cross-party collaboration product, enabling Lenders, Borrowers, and Inspectors to coordinate directly within the platform, growing from 0 to 210 active customers
- Expanded scope to lead core platform functions in addition to the collaboration team, managing both product areas concurrently

Implementations Team Lead

2024

- Had two direct reports; built a data-driven payment adoption strategy (funnel + conversion metrics), partnering with the Product team to improve performance based on these analytics
- Delivered measurable impact: reduced customer time-to-value by 47% and time-to-first payment by 43%

Business Operations & Strategy Associate

2023

- Drove cross-functional process improvements across accounting, revenue operations, sales, and finance; owned billing operations and revenue reporting, improving accuracy and accelerating monthly close timelines

ANKURA CONSULTING

Director

2021 - 2023

Senior Associate

2019 - 2021

Associate

2018 - 2019

- Managed three direct reports; advised large owner/developer and GC clients on project risk mitigation decisions
- Developed data models in Excel and Visual Basic for over \$1.8 billion of construction disputes spanning heavy civil, transportation, oil and gas, and renewable energy projects
- Solely responsible for leading in-person negotiations on behalf of client on a \$40M dispute, including development of the cost data model used by both parties in the final litigation settlement

ASSOCIATION FOR THE ADVANCEMENT OF COST ENGINEERING

Treasurer – San Francisco Section

2020 - 2023

UC BERKELEY COLLEGE OF ENGINEERING

Graduate Teaching Assistant

2017 - 2018

- CE 167 – Engineering Project Management
- E7 – Introduction to Computer Programming for Engineers
